Year 7 Food Technology Q3

Dear Parents and Carers

Next quadmester, Computer Science and Food Technology swap again in the Year 7 creative carousel of subjects. Due to the size of the Food Technology room, students in Year 7 will be split in their normal creative groupings but then in half again to allow for a safe working environment for their practical cooking tasks. Mrs Scott will be teaching the practical lessons with support from Ms Bloor who will work with the other half of the group on fun food tech projects, evaluating their practical work and examining the theory elements of the Food Technology curriculum.

Information will be shared with students via Mrs Scott about when they should be bringing in their ingredients but these changes should be effective on the student timetables on Arbor and Firefly from w/c 23rd February - 8th May 2026. When students are taught by Mrs Scott they will be doing practicals and when they are with Mrs Bloor it will be classroom-based.

I do hope this makes sense and you can view these changes and discuss the format of sessions with your child in preparation for Quadmester 3 starting after half term.

Yours faithfully

Mrs Emily Banfield
Senior Assistant Head: Achievement & Standards
